SCOTT SIMION

H: 561 632 9726 | scottsimion@gmail.com

- Personal Website: ssimion.surge.sh
- Github: www.github.com/ssimion13

SKILLS

- Javascript (ES6)
- React/Redux
- C
- Node.js
- MongoDB

- Express
- Mongoose
- HTML
- CSS, SCSS
- BootStrap, Semantic, MaterialUI

WEB DEVELOPMENT WORK

64Labs   January 2019 – November 2019

- Worked in a largely self directed structure to ensure high quality deliverables are created and delivered on aggressive deadlines
- Primarily worked on building mobile-first Progressive Web Apps using React/Redux best practices for eCommerce clients, focusing on end-to-end customer journey
- Integrated with third party sources such as SalesForce, Tealium, Google Analytics and more to deliver content rich experiences
- Worked closely with project management to identify and design to client needs
- Built cross device, cross locale compatible Single Page Apps using React 16/Node 10/Redux using Reselect and related helper libraries
- Technologies used: NodeJS, React-Redux, Express, jQuery, Postman, Github, JIRA, GIT, Google AMP
